Vientiane to Pakse Overland

We are keen to promote the beautiful Vientiane to Pakse overland route, particularly to make a stop in the stunning Khammoune region. A recommended tour would include a night on the Hin Boun River at the new Saynamhai Resort (see below), exploring Kong Lor Cave and the beautiful limestone karst scenery, followed by some time in the picturesque town of Thakek, where you can stay in a converted French Colonial house and explore the recently discovered Buddha Cave. On the way to Pakse, we have discovered a new village called Don Kho, specializing in Buddha carvings. You will see local people carving the sandstone in the middle of the forest.

With so much on offer on this route, it makes sense to skip the flight and avoid the crowds by exploring this little known region of Laos. For more information please contact us on: sales@viengchampatour.com

Baci ceremony with a Lao family

Viengchampa can organize a traditional Baci ceremony with a Lao family. You will be invited by Lao people in their own house to celebrate a Baci ceremony to bring good luck and chase away the bad sprits. Local people will prepare a banana tree with flowers, candles and offerings in the house. The clients will pray and get their wrists tied by white cotton string. Enjoy the sweets or some local alcohol after the ceremony. Options include just the Baci Ceremony, or a full blown celebration with home cooked meal and plenty of Beerlao! Please note that this is a genuine Baci, not the poor imitation ones you will find in local restaurants.
